1. Vendor Question: The RFP calls out three configurations but does not mention a quantity of each. Is it assumed that the quantity is one of each configuration?

UCF Answer: Page 13 of the bid list the quantity for each. Please see Addendum 1 for changes on item description.

Line Item	Qty	Item Description
001	6	GPUs: 4x Quadro RTX 2080Ti + NVLink (blower version, pair-wise connections)
002	2	GPUs: 4x Quadro RTX 6000 + NVLink (pair-wise connections)
003	1	GPUs: 8x Quadro RTX 6000 + NVLink (pair-wise connections)

2. Vendor Question: In the specs for each server are the specs hard requirements or can we provide substitutions equal to or greater than specifications listed? For example, if we wanted to provide Xeon processors instead of the i9 processors

UCF Answer: Substitution equal or greater can be made.

3. Vendor Question: Is this bid in some sort of black out period or can we get some time with the end customer to educate them on the benefits of composability?

UCF Answer: Our operations is not currently at a scale that would require this service.
